FIFTY LOSE LIVES IN RAILROAD WRECK

Many Bodies Were Burned To A Crisp.

THE INJURED NUMBERS ABOUT 25

The Worst Railroad Wreck In Colorado Since the Memorable Edin Disaster Occurs on the Rio Grande, Near Town of Adobe.

Pueblo, Colo., March 17.—The worst railroad wreck in Colorado since the memorable Edin disaster, occurred at 2 o'clock Friday morning on the Denver and Rio Grande railroad, near Adobe.

Eastbound train No. 16 crashed into westbound train No. 3, telescoping the forward cars on each train. The coaches at once took fire and the flames completed the horror begun by the collision.

The number of dead is estimated at from 50 upwards. The number of injured is placed at 25. The cause of the wreck is attributed to a failure to deliver orders to No. 16 so that No. 3 could pass.

Among the physicians who rendered assistance were Dr. F. N. Cochran, of Salida, who was on No. 16 at the time of the collision, but who escaped injury. He at once began caring for the wounded and was assisted by Drs. E. W. Rambo and F. B. Moore, of Florence, who soon arrived at the scene of the disaster.

Some of the victims were pinioned under the wreckage and lashed alive before help could reach them.

Most of the injured were on No. 3, which was heavily loaded. No. 16 carried comparatively few passengers and these escaped generally with a slight shaking up. One man, whose name could not be learned, was the only one of a family of ten who escaped. He lost his father, mother, wife and three children, a brother and two other relatives.

Three of the crew on No. 3 were killed, and two on No. 16. One of the engineers on No. 3, which was a double-header, was found dead in his cab, with his hand on the throttle.

Express Messenger E. M. Parland, a relative of the detective of that name, who has been active in the Governor Steunenberg murder case, is among the dead.

Many of the bodies will never be identified, having been burned to a crisp. Part of the mail was destroyed and all the express matter.

Relief trains were at once despatched to the scene from Pueblo and Florence, but the work was necessarily slow, because of the smoke from the burning wreck and the cold weather.

The first train bearing the injured reached Pueblo shortly after 6 o'clock.

Statue for Wheeler.

Birmingham, Ala., March 17.—An association has been formed in Birmingham to erect an equestrian statue to the memory of the late General Joseph Wheeler. The officers and incorporators are all members of Camp Hardee, United Confederate Veterans, and they propose to erect the monument in Birmingham or some other Alabama city at a cost of $25,000. General subscriptions will be solicited, not only from the admirers of the ex-confederate leader in Alabama, but in all parts of the south and north. The plan is to raise as much of the fund as possible by $1 subscriptions and to augment that by larger donations.

Writ of Error Denied.

Washington, March 17.—Justice Harlan, of the supreme court of the United States has denied the writ of error applied for in the case of Charles L. Tucker, under sentence of death on the charge of murdering Miss Mabel Page at Weston, Mass., in March, 1901.

Democrat Is Renominated.

Tacoma, Wash., March 17.—The Democrats have renominated George P. Wright for mayor. The platform favors municipal ownership, restriction of social evil and suppression of gambling.

NEGROES TRIED TO KILL DUDLEY

Two Women and Man Attacked Candidate for Legislature.

Columbus, Ga., March 17.—Homer R. Dudley, a prominent saw mill man of Seale, Ala., and candidate for the Alabama legislature from Russell county, had a narrow escape from assassination at the hands of negroes in the lower part of Lee county, Alabama.

He went to the home of Ike and Kate Hodge, negroes, who had persuaded Sam Morgan, a negro boy, who had been bound to Mr. Dudley for a year by his parents, to leave Mr. Dudley's place and live with them.

Mr. Dudley told the Hodges they must vacate the house he was renting them, or give up the boy. Kate Hodge applied a vile epithet to him and advanced on him with a large pine limb. At the same time, another woman came running toward him with an ax, while Ike Hodge advanced with a gun.

Mr. Dudley drew his pistol and opened fire on the party and as he did so the negro shot at him with his gun. The load of shot went through Mr. Dudley's sleeve.

Both the negro and Mr. Dudley exchanged shots again, but neither took effect. The negroes retreated and Mr. Dudley stopped firing. The negroes thought he was out of ammunition, and all three advanced to attack again. Mr. Dudley opened fire again. The two women were each slightly wounded in the face and Hodge was shot in the knee. The negroes then retreated from the field. Mr. Dudley was uninjured.

CLARK HAS BEEN IDENTIFIED.

Expert Nye Says Prisoner Is James Alk, an Ohio Burglar.

Atlanta, March 17.—Expert J. M. Nye, of the federal prison, has identified Charles H. Clark, who is being held as a suspect in the Tower, as James Alk, an Ohio burglar, who has served a term. Mr. Nye sent Clark's measurements by the Bertillon system to the prison at Columbus and he received a letter from Columbus stating that Clark was Alk. Mr. Nye also received a photograph of Alk and he compared it with Clark. He says the picture is that of Clark.

Mr. Nye notified Chief Jennings of Clark's identification, and the chief believes he will now have less trouble in getting a full history of Clark and his career.

Clark was arrested by the city police some three weeks ago when nine suspects were taken from the Cannon house. In one of the rooms they occupied were found dynamite, fuses and nitroglycerin. It was believed then, and the police are still of the same opinion, that a gang of crooks were bagged. The men were all bound over and are held at the Tower.

Snow Slides Does Great Damage.

Denver, Colo., March 17.—Ouray, Durango, Silverton, Leadville, Aspen and smaller mining camps have been visited with snow slides during the past two days. Hairbreadth escapes from the snow slides down the steep sides of the mountain are reported from every mining camp and grave fears are entertained for scores of daring prospectors and miners who are cut off from the outside world in their lonely cabins far up in the hills. One slide at Silverton struck the edge of the town, doing considerable damage. The railroads in the San Juan region are blockaded.

Claims Killing an Accident.

Anniston, Ala., March 17.—Gordon Stewart, a prosperous farmer living near McFall, shot and instantly killed his wife. They had been living apart and recently came together again. Stewart claims that the killing was accidental, while the neighbors believe different, and feeling against Stewart in the community is said to be high. Stewart has not been arrested. The coroner will investigate the killing.

Attempted To Burn His Way Out.

Waynesboro, Ga., March 17.—Thursday night about 8 o'clock Jim Robinson, a negro, in the city chaingang for selling whisky, attempted to burn his way out of the barracks here. He took his lamp and poured the oil on the floor, and had burned a hole large enough to get his body when he was discovered in the act.

DELEGATES OF POWERS ARE MORE HOPEFUL

French And Germans Show Less Rigidity

HOPE DICISION AT NEXT SESSION

It Is Believed that Two Countries Will Agree To a Modification of Inspector Generalship Which Will Be Settlement Basis.

Algeciras, March 17.—The delegates of the powers to the Moroccan conference are more hopeful as the French and Germans, after communicating with their governments, show less rigidity than they did pervious to so doing. Sir Arthur Nicholson, head of the British mission, is exercising an important and perhaps decisive influence toward the agreement. While continuing to support the French delegates he maintains that they should do their share towards securing an adjustment and therefore advises them to accept a modified form of the Austrian police project, such a modification providing that the inspector general shall merely inspect but not command the Franco-Spanish police. It is pointed out in British quarters that Germany having conceded the principle of the Franco-Spanish police, France should concede the inspector generalship without command. Moreover, it is claimed that a police force thus organized would assure French predominance in Morocco. The French hesitate to agree to this, believing that a foreign inspector general stationed at Casablanca is a ruse to secure a base for future German influence and intrigue. It is understood however, that Great Britain offers to cooperate with France against the realization of such a design and, therefore, it is believed that the French and Germans will agree to a modification of the inspector generalship and that this will be the basis of the agreement.

The delegates hope that the next session will be decisive and are deferring the meeting until assured that both sides are prepared to accept the modified project.

British Steamer Ashore.

Atlantic City, N. J., March 17.—The British steamer Cearense, from Para, for New York, struck on the shoals between the Toms River Life Saving station and Island Beach Friday and is still hard aground. The vessel at once signalled for assistance and the wrecking tug North America, which was lying at the Delaware breakwater, was ordered to proceed with all possible speed to the aid of the steamer. The sea is smooth and it is believed the steamer will be floated at high tide. Life savers were able to reach the vessel, but the passengers and crew still remain on board.

State Senator Sent to Jail.

Little Rock, Ark., March 17.—State Senator F. O. Butt, of Carroll county was committed to jail for refusing to answer before the grand jury certain questions relating to the investigation of bribery charges in connection with the session of the Arkansas legislature last year. The imprisonment was ordered by Circuit Judge Lea. Senator Butt stated that he would stand upon his constitutional rights and refused to answer questions which, he averred, were intended to incriminate him.

Arrested on Murder Charge.

Nashville, Tenn., March 17.—Dr. J. Herman Feist has been arrested here and placed in jail on the charge of murdering Mrs. Rosa Mangrum, whose dead body was found floating in the Ohio river at Cairo, Ill., about six weeks ago, she having disappeared from Nashville on Dec. 14th, last. Dr. Feist is a well known and prominent physician of Nashville and his arrest has caused a profound sensation.

Plague Reappears at Sydney.

Sydney, N. S. W., March 17.—The plague has reappeared here. Two cases were reported Thursday and three more were discovered Friday in the same block of houses.

STAMPS SOLD FOR A BIG SUM.

Boston Firm Pays $2,051 for Eight Unused Stamps.

New York, March 17.—A rare set of eight unused United States postage stamps in the collection of A. S. Scholle sold for $2,051 at auction on Thursday night.

The face value of the stamps is $1.75. It is a complete set of issue of August 14, 1861. When the civil war began there was a quantity of the 1857-60 issue of stamps in the seceding states. To prevent their use by the Confederate postmasters, the United States authorities declared that these stamps were no longer to be accepted for postage, and the issue of August 14, 1861, was hurriedly prepared. They did not give satisfaction, however, and in the following month a new set was issued. These stamps are the earliest issue that can be used for mailing purposes. All previous issues have no value except to philatelists.

A Boston firm was the purchaser. It is supposed that the set was bought on order of the postoffice department, which is lacking a set.

No Decision Reached.

Washington, March 17.—President Roosevelt has authorized the issuance of the following statement regarding the successorship of Justice Brown in the supreme court of the United States: "As Mr. Justice Brown will not retire until June 3, when the supreme court will take a vacation until the second Monday in October, and no public inconvenience can arise from a vacancy continuing through the vacation, the president will take further time to decide the question of Mr. Justice Brown's successor. Several names, including that of Secretary Taft, have been under consideration, but no decision has been reached or is likely to be reached or announced in the near future."

Will Build Social Settlement.

Chicago, March 17.—A social settlement designed to compete with neighboring saloons and dance halls, offering opportunities for refreshments as well as club rooms, a gymnasium and indoor games, is to be built by the Second Baptist church, Morgan and Monroe streets, of which the Rev. John Roach Straton is the pastor. Within a radius of three blocks of the church there are 83 saloons. With these and with their accompanying dance halls and dives the settlement will contend for the favor of the young men and women who live in the neighborhood.

Geological Survey Wants Building.

Washington, March 17.—Director Wolcott, of the geological survey has recommended to congress that a new building be erected for the use of that branch of the government service at an estimated cost of $1,200,000. The director says that the government property and records in the tented buildings now occupied by the survey, the value of which amounts to about $6,000,000, are in constant danger of loss by fire, as the buildings contain over 100,000 square feet of varnished and inflammable wood.

Four Lose Lives in Fire.

Grand Rapids, Mich., March 17.—The business portion of the village of Trustin, Osceola county, was destroyed by fire early Friday morning, which started in the basement of the Hotel Compton from a defective furnace. The occupants escaped in their night clothes, while four were burned to death. The dead: William H. McGrane, Edward Demorest, a porter; Charles Workman, a traveling man of Pierson. The financial loss is about $22,000.

Absence from Capitol Benefits Depew

New York, March 17.—The Tribune says that Senator Chauncey M. Depew is deriving the benefit of his temporary absence from Washington. He is better than he has been for months, and if he acted on his own inclinations would at once return to the capital. He has, however, been ordered by his physician to recuperate his strength thoroughly before returning to his seat in the senate.

Tool Plant Burned.

Cincinnati, March 17.—Fire at the Dresses Machine and Tool company's plant destroyed that establishment causing a loss of $100,000; insurance $45,000.

TOOK ELECTIONS INTO OWN HANDS

Workmen Then Proceeded On Universal Suffrage Basis.

LEADER OF "LEAGUE" ARRESTED

Author of Anti-Jewish Circulars, M. Levroff, Is Dismissed from Government Service and Will Be Prosecuted. Rows Occurred at Elections.

St. Petersburg, March 17.—The author of the anti-Jewish circulars was M. Levroff, an employe of the minister of the interior, holding a rank in the official hierarchy equivalent to councillor of state. He is the leader of the "League of the Russian People." He has been dismissed from the service and arrested and will be prosecuted.

The first step of the peasant elections has been completed in 28 provinces, and in the workmen's elections the first stage has ended in ten provinces and six towns.

In many cases no returns have been published, but the Rech claims to have authentic information showing that the peasants in 72 districts elected progressive delegates against 48 conservatives. Election rows occurred at various places. At Torsehok, province of Tver, the marshal of the nobility was compelled to close a small land owners' assembly because the electors insisted that non-registered persons were participating.

In the Schlusselberg district, the workmen took the elections into their own hands, and proceeded on the basis of universal suffrage.

WANTED TO LYNCH MEN.

County Jail Assailed by Large Crowd Which Battered at Doors.

Omaha, Neb., March 17.—A crowd of men Thursday night assembled about the county jail, where four white men charged with murder of Nels Lausten, a saloonkeeper, while holding up his saloon, and three negroes charged with the holding up of a street car and killing the conductor, are confined.

Their avowed intention was to lynch the accused men. Sheriff McDonald declares that the prisoners are not in the jail, but it is generally believed that, at least, a part of them are.

The mob, greatly enlarged, battered down the door of the jail.

The mob succeeded in breaking in the doors of the jail, and some of their number entered the building. At this juncture about 40 policemen arrived on the scene, and within five minutes the mob had been driven from the jail grounds. The officers used their clubs on some of the members of the mob, but no arrests were made. The mob was rapidly dispersed by the police.

Plan Monument for Jefferson.

New York, March 17.—A committee of prominent men has been formed to take charge of the plans for the erection of a monument in Central park in memory of Joseph Jefferson. It is hoped to secure by popular subscription $30,000. The statue will represent Mr. Jefferson in the familiar character of Rip Van Winkle, and will be a life-size bronze figure, mounted on a granite pedestal. The Lincoln Trust company will act as the treasurer of the committee.

113,800 Bales of Hops.

Portland, Ore., March 17.—With the close of the hop season a compilation made by the leading Salem, Oreg., firms show that 11,300 bales remain in the state, which, with the shipments to date, brings the 1905 crop of Oregon up to 113,800 bales. The roots have wintered well and including the new acreage that will come into bearing this year Oregon will probably harvest from 120,000 to 140,000 bales in the fall.

Old Flag Received.

Montgomery, Ala., March 17.—Dr. Thomas M. Owen, director of the history department, has received the flag of the Thirty-fourth Alabama, Confederate States army, captured by the Eleventh Missouri at Brentwood hills.

UNIVERSITY BOYS MADE BIG HIT

Their Minstrels Was Well Patronized by Gainesville People.

TOKEN OF APPRECIATION

Of the Presence of the Boys They Called Their Own—Performance Was Good Throughout—Boys Taken On Drive to University Grounds.

The University Minstrels and their friends arrived in Gainesville bright and early, on time, Saturday morning, and went promptly to the Brown House, where they are assigned quarters during their stay here.

The University boys were at their best, and during the day mingled with the people, many having friends here. In the afternoon the band gave a concert on the bandstand, which was enjoyed by a large number of our citizens, many of whom were ladies. Immediately after the concert they were treated to a drive, as a compliment from the liveries. Many places of interest about the city were visited, including the new University grounds, and the students had the opportunity of inspecting their new home. They expressed themselves as being highly pleased. The drive through the city was conducted by W. N. Wilson, who has always been one of the University's best friends and supporters.

In the evening the University boys appeared at the opera house to a crowded house, which was evidence that they were appreciated by the people of the city in which they are in future to call their college home. Notwithstanding that it was on Saturday night, when many could not get away, the house was crowned as it had never been crowded before this season, and this was the highest compliment that could have been paid.

The performance was first-class in every respect, and was enjoyed by the large audience, which heartily cheered the University boys. Every number was good, and it would require indeed an expert in the line of critics to make a preference.

At the conclusion of the show the boys were escorted by Mr. Wilson to The Oaks, where a most sumptuous banquet had been prepared for them. There was everything good to eat, and during the occasion many appropriate toasts were delivered. Being the first University function held in Gainesville, it was naturally one of great enthusiasm and joy.

Among those who came from the University, many of whom assisted in entertaining at the minstrel performance, were Mrs. H. J. Sherwood, pianist; Prof. Holton; Students J. H. and W. H. Dowling, J. W. Sykes, W. T. Hall, C. L. Canova, Kid Evans, Humphreys, E. C. Bryan, J. A. O'Terry, D. D. Davis, B. Barrs, Dougherty, Liddell, J. D. and B. Streety, S. A. Edwards, R. J. Evans, T. L. Porter, F. E. Thompson, F. B. Gardner, W. W. Gibbs, W. M. Rowlett, C. H. Hollingsworth, A. C. Curry, W. H. Hocknoy, R. F. McGuire and W. A. Brown.

The boys are well pleased with their new home, and expect to return to school here with renewed energy and vigor as soon as the elegant new buildings are ready to receive them.

This is a deserved promotion, and one which is appreciated not only by the person honored, but by the fraternity at large throughout the State. Mr. Lynch, who is a past chancellor of Mt. ROBINSON WILL NOT RUN.

Old and Faithful Servant of Public Refuses to Enter Race.

Many friends of Hon. W. G. Robinson, who recognize and appreciate his ability as an alderman, covering a period off and on for the past twenty-six years, have approached that gentleman with urgent requests to enter the race again; but Col. Robinson has modestly declined—not because probably he would not appreciate getting back into harness and doing what he could for the city and its interests, but because his health will not permit of exposure to the night air.

A reporter of The Sun called upon Mr Robinson at his private office Saturday. He informed that gentleman that the sentiments of a great many people were favorable to his candidacy, regardless of politics, and that it seemed to be a desire that he have his name placed upon the ticket.

"I have been approached by a large number of friends and citizens in the matter," remarked Mr. Robinson, "and I appreciate their interest very deeply, but I must forego the invitation on account of my health, which I am glad to say has improved very much lately, but my physician yet forbids me from going into the night air."

When asked as to his choice in the matter of municipal officers, Col. Robinson replied that he had no preference. "All I want is a set of live, up-to-date, progressive officials who will work for the advancement of the city, and in this I can assure them as a private citizen they will always have my hearty co-operation and support."

Col. Robinson has been one of the most progressive members of the council the city has ever had, and during his long service served eight terms as chairman of that board.

PROF. BROWN LEAVES.

After Faithful Bible Work Here, Which Was Highly Instructive.

Prof. J. R. C. Brown, who has been a prominent part of the Bible Conference and Chautauqua here ever since these institutions were organized, closed his course of Bible lectures Friday and left for Jacksonville Saturday, where he will fill the pulpit of the First Presbyterian Church this morning and evening.

Prof. Brown is a most able and popular Bible teacher, as was evidenced by the large audience which has studied under him daily throughout the Bible Conference and Chautauqua. The ministers of the city have been enthusiastic over his teachings. Rev. Thos. P. Hay, pastor of the First Presbyterian Church, says he is one of the most original and impressive teachers he has ever known.

Prof. Brown completed a series of lectures on the Gospel of St. Matthew, which have been deep and original. It has been remarked on all sides that they should be published in book form.

The management has invited Prof. Brown to return next season, and the citizens are delighted at the announcement.

CONTAGIOUS BLOOD POISON

KING OF ALL DISEASES

To Contagious Blood Poison rightfully belongs the name King of all Diseases. It is the most powerful of all human ailments—corrupting every part of the body and wrecking and ruining the lives of those unfortunate enough to contract it. When the first sign appears in the form of an insignificant sore or ulcer, few persons realize that the deadly virus has entered the blood; but so potent is the poison that one drop will vitiate and pollute the purest and healthiest blood, and in a short time the degrading and horrible symptoms begin to appear. The mouth and throat ulcerate, the glands in the neck and groins swell, the hair and eye-brows fall out, copper-colored spots appear on the body, and in the latter stages of the disease the poison even works down and destroys the bones. No other disease is so highly contagious, and many have contracted it and suffered its awful consequences through a friendly hand-shake, handling the clothing of one afflicted with it, or drinking from the same vessel. S. S. S., The King of Blood Purifiers, is the only cure for Contagious Blood Poison. It goes down into the circulation and forces out every particle of the virus. It is nature's antidote for this peculiar poison, and cures the disease in all its stages, and cures it permanently. S. S. S. does not hide or cover up any of the poison to break out in future years, but so completely eradicates it from the blood that no signs are ever seen again. S. S. S. is purely vegetable, we offer $1,000 for proof that it contains a particle of mineral of any kind. Book with instructions for home treatment and any medical advice you desire will be furnished by our physicians without charge.

Have you a burglary insurance policy? If not, why not? There is no protection in locked doors, so-called proof-safes, watchmen, burglar-alarms or watch dogs. They are merely precautions. Precaution is expensive, but does not afford protection. MUNICIPAL POLITICS

[illegible]

It might be interesting to know that there are qualified [illegible] voters, of whom 201 are Republicans, estimated, and 318 Democrats, qualified to vote in this city.

The aspirants for aldermanic positions seem to be scarce. A petition was circulated Saturday and the required number of names signed nominating W. S. Dorsey for alderman. It is understood that the names of A. E. Wittstock, C. A. Colclough and Dr. R. B. Ayer have been endorsed by the meeting at Johnson's Hall a night or two recently.

At present there is offered nothing of a lively nature in the coming campaign, but there is no telling what will happen when the campaign opens in earnest.

IT MUST BE THOMAS.

Former Gainesville Man Writes Interesting Letter to The Sun.

Editor Sun: For the past few weeks I have been much interested in your coming city election. As you know, I lived in Gainesville, love the city and her charming people, and am always happy to learn of Gainesville's prosperity. Just now, thousands of people are interested in Gainesville. Many are going there for homes. Now is it the time to experiment—to take even a chance by changing your mayor?

Gainesville has a mayor who has proven his ability, his worth and his progressiveness. He is not an experiment—he has proven to be an honor to the city and a worthy representative of your people.

[illegible] vote for Mayor Thomas for [illegible] term. He has done much toward securing your college. He is a man of brains, money and influence, and by all means he should have your support. [illegible] Register and vote for Mayor Thomas for mayor of Gainesville. Yours very truly, [illegible]

The Times-Union thinks it would be well before invading China to find out whether Japan has a Monroe doctrine.

The report that a plot was laid to kill Rev. Dr. Parkhurst seems to be a canard. It was only an advertising dodge.

If the Everglades are worth draining, and it seems that some one ought to be able to decide that question, they should be drained and the land put on the market. That should be the position of every honest citizen of Florida.

The difference between Florida canned pineapple and the same fruit canned in the North should convince anyone that the Florida product could not help but be the best. If the fruit is put up where it has opportunity to become thoroughly ripe it cannot help but have a better flavor.

SOUTH'S EARNING CAPACITY.

It has been so attractive to note and chronicle the great strides the South is making in manufacturing and industrial development, that these have in some degree overshadowed its other sources of productive wealth, and which really constitute the basis of its permanent progress and prosperity, says The Tradesman of Chattanooga.

The South was formerly an agricultural and commercial section, and from these sources acquired great wealth with a high degree of civilization in consequence, so that it would be a very grave mistake if she did not still place these in their proper sphere of usefulness and value in all estimates that might be made of the resources of the South.

It has become a rule to measure values by the earning power of the investments on which they are based, and considered by this standard the farm property of the South is the most valuable of all its assets, as the following statement of its values and earnings will clearly demonstrate:

According to the census of 1900 there were 355,791,559 acres in farms in the Southern States, of which there were only 121,831,797 acres improved, or 34 per cent of the whole.

The value of the entire acreage, improved and unimproved, including buildings and all improvements, was placed at $3,058,133,129, and yet the fraction of the whole that was improved produced last year $1,500,000,000, which showed an earning capacity of nearly 50 per cent on the total acreage, including the 66 per cent that was idle or unimproved.

This is the clearest demonstration that can be given of the value of investments in Southern farm property. Even with all that has been or that can be said regarding farm labor in the South, no other portion of this continent can show such earning capacity from its farm lands.

It is further remarked that these lands only carry an average valuation on both improved and unimproved of about $6 50 an acre. Instances can be given where industrious tenants have cleared enough on one year's crop to make a substantial payment on a farm of their own, and pay for that farm outright on the proceeds of the second year's labor.

But by adding the value of farming implements and live stock to the value of the farms, the earnings last year still show 20 per cent returns on the total investment.

This is only a fractional part, however, of those sources from which the income of the South is derived and on which an estimate of its earning capacity can be justly given. The profit on banking, merchandise transactions, dividends from stocks and bonds, receipts from transportation lines, water, gas and electric systems and other purely commercial sources were no less than $2,000,000,000, while receipts from miscellaneous sources, such as sales of lumber, timber land, live stock, minerals, etc., were fully $1,000,000,000.

To the above we can add the returns from manufactured products of $1,500,000,000, which gives the following grand summary:

Receipts from agricultural sources	$1,500,000,000
Receipts from commercial sources	2,000,000,000
Receipts from miscellaneous sources	1,000,000,000
Receipts from manufacturing products	1,500,000,000
Grand total	$6,000,000,000

Now this is nearly 6 per cent on the wealth of the entire nation, which is $110,000,000,000. The South possesses of this the sum of $30,000,000,000, from which it will be seen that the actual earnings of the South last year was 20 per cent on its total worth.

These are not extravagant estimates, but in the main are official figures and are under rather than over the real earnings of the South last year. Some of the estimates are based on census figures of six years ago, when it is known that this period has been the most prosperous that the South has ever experienced. These figures tell their own story and need no embellishment at our hands.

YOUR HAT

May Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in style," but the modern hat for men has lots to answer for.

Baldheads are growing more numerous every day. Hats make excellent breeding places for the parasitic germs which sap the life from the roots of the hair.

When your hair begins to fall out and your scalp is full of Dandruff it is a sure sign that these countless germs are busily at work.

There is but one way to overcome the trouble and kill the germs—that way is to apply Newbro's Herpicide to the scalp—it will kill the germs and healthy hair is sure to result.

Orino Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children, as it is mild and pleasant, and does not gripe or sicken. Orino is much superior to pills, aperient waters and all ordinary catharties as it does not irritate the stomach and bowels. J. W. McCollum & Co.

FALL OF SASH SMASHED PLOT.

Attempt of Negroes to Kill Poole and Burn His Store.

Waynesboro, Ga., March 17.—Frank Washington, and another negro wandering around plundering and burning anything and everything in the country, incited the negroes on the Cates Skinner place to form a plot to rob and burn a store and murder L. B. Poole and W. H. Pace, overseers on the place.

An attempt was made to enter the store. The pin in the window fell to the floor and waking Mr. Poole, who sleeps in the store, he used his shotgun, driving them away.

The negro Washington was captured and brought to the city. He says that there were six or seven in the plot and that he was promised $1.50 to go with them, but had not been paid. He says that they had stationed one man between the store and the house to shoot Mr. Pace as he came out of the house. Mr. Poole's fortunate use of his gun frightened the negroes away.

The Cates Skinner place in about 10 miles from the city, and was selected on acount of the distance from town because the negroes thought they could get away before discovered. They were armed with shotguns and pistols.

Washington also said he knew the negroes who burned Keysville, a few months ago, and that their names were Charles and George Jones. Washington confessed to the robbery of the store of Dr. Orbit and the house of Charles Mathis, at St. Clair, and a store at Midville.

Other arrests are liable to follow.

Always Keeps Chamberlain's Cough Remedy in His House.

"We would not be without Chamberlain's Cough Remedy. It is kept on hand continually in our home," says W. W. Kearney, editor of The Independent, Lowry City, Mo. That is just what every family should do. When kept at hand ready for instant use, a cold may be checked at the outset and cured in much less time than after it has become settled in the system. This remedy is also without a peer for croup in children, and will prevent the attack when given as soon as the child becomes hoarse, or even after the croupy cough appears, which can only be done when the remedy is kept at hand. For sale by all druggists.

Railroads Suffer Labor Famine.

Chicago, March 17.—The Northwestern and Southwestern railroads are about to suffer a labor famine. Twenty-five thousand men are needed in those states to build the roads already under way. There has never been such activity in railroad construction as in the east at present and the visible supply of labor in that part of the country has been exhausted. Ten thousand are needed by the Western Pacific, the new Gould line to southern California, and they are offering from $2 to $2.25 a day for unskilled labor with the chance of steady work until the cold weather sets in again next fall.

MISSIONARIES NOT TO BLAME.

For Troubles Which Have Occurred In China.

New York, March 17.—Any one recently home from China and hearing the statement of General Corbin that missionaries are the cause of the present unrest in China cannot help being astonished, says the Rev. S. Harrington Little, an Episcopal missionary just returned from China after nearly eight years residence there. He says the charge against the missionaries is preposterous. He said "undoubtedly there has been some cause of irritation against French missionaries, who have used the power of their government in their work and in law suits, and whom France has used to further her interests in China. At the demand of France, Roman Catholic bishops have been given by the Chinese government high official rank, and with their new authority has come the temptation to misuse their power, but even so, it is impossible in view of the facts already stated to admit for a moment the charge of General Corbin against missionaries. Careful study of the Chinese question compels the conclusion that political and social rather than directly religious conditions have brought China to its present state of agitation and turmoil."

Torture by Savages.

"Speaking of the torture to which some of the savage tribes in the Philippines subject their captives, reminds me of the intense suffering I endured for three months from inflammation of the kidneys," says W. Cures liver complaint, dyspepsia, blood disorders and malaria, and restores the weak and nervous to robust health. Guaranteed by all druggists. Price 50c.

MARSHAL SHOT FROM AMBUSH.

Negroes Had Been Firing Pistols on Strets of Winokur.

Folkston, Ga., March 17.—Tom Robinson, marshal of Winokur, 15 miles north of here, was shot and instantly killed by negroes at that place. A crowd of negroes were shooting on the streets, and Robinson started toward them for the purpose of putting them under arrest.

When the negroes saw the marshal approaching, they secreted themselves by the roadside. One of them got behind a hog pen and opened fire with a rifle. He shot at Robinson four or five times before he was shot by the marshal and instantly killed.

At this juncture another negro, nearby, opened fire on the marshal with a double-barreled shotgun, the first shot penetrating his breast near the heart and killing him instantly.

Lucius Crawford has been placed in jail charged with the killing.

Robinson was about 25 years of age, and leaves a wife and one child.

Bring Suit Against Barry.

San Francisco, March 17.—United States District Attorney Devlin has begun suit against Thomas Barry, an attorney who was a former member of a volunteer battery stationed here during the Spanish-American war. The government alleges that Barry failed to account for $4,000 when he made his final settlement as quartermaster. Barry claims to have paid in all the money due to the government.

Peculiar Accident to Young Man.

Athens, Ga., March 17.—George Gillon, of Atlanta, a student in the university, while walking along near Moore college building, sustained painful injuries by being struck on top of the head with a pane of glass that fell from the third story of the building. He was rendered unconscious for awhile and bled profusely, but the skull was not fractured.

Shot from Ambush.

Florence, La., March 17.—Lee Stewart and Miss Willie Davis, while standing in the doorway of the young lady's home, were shot from ambush by an unknown party. Stewart died of his wounds several hours later, and the young lady is believed to be fatally injured. David Roach, a clerk in a local mercantile establishment, is held pending an investigation.

Doctors Are Puzzled.

The remarkable recovery of Kenneth McIver of Vanceboro, Me., is the subject of much interest to the medical fraternity and a wide circle of friends. He says of his case: "Owing to severe inflammation of the throat and congestion of the lungs, three doctors gave me up to die, when, as a last resort, I was induced to try Dr. King's New Discovery and I am happy to say, it saved my life." Cures the worst coughs and colds, bronchitis, tonsilitis, weak lungs, hoarseness and lagrippe. Guaranteed at all drug stores. 50c and $1. Trial bottle free.

Tender Root an Invitation.

Washington, March 17.—Mr. Martinez, the Chilean minister, by direction of his government, has tendered Secretary Root an invitation to visit Valparaiso on his coming trip to the Rio conference. The minister said his government has not presented the invitation earlier because it was not known Secretary Root would extend his trip beyond Buenos Ayres. Secretary Root took the invitation under consideration.

Negro Murderer Hanged.

Madisonville, Ky., March 17.—Garth Thompson, a negro convicted of the murder of William Brame, was hanged here Friday morning. It had been understood that owing to a conflict between the local and county authorities the execution would take place in the court room, but the difficulty was adjusted and the man was hanged in the rear of the county jail.

Pulled Trigger Before Mirror.

Tuscumbia, Ala., March 17.—Standing in front of the dresser in his room, and looking into the mirror, Dr. Samuel J. Cooper, a prominent physician and citizen of this city, pushed the barrel of a revolver into his mouth, pulled the trigger and the bullet went crashing through his brain. He fell dead in his tracks. Ill health is given as the cause of the tragedy.

THE GARDEN OF EDEN.

Its Location a Mystery That Will Probably Never Be Solved.

The location of the earthly paradise or garden of Eden is still a matter of dispute among orientalists and Scriptural scholars of highest reputation. Some have endeavored to locate it by the fruits and mineral productions named in the Biblical descriptions as they appear in the second chapter of Genesis; others by the rivers mentioned in verses 11 to 14 of the above mentioned chapter. The weight of investigation and tradition inclines to an agreement that the Tigris and the Euphrates of modern geography are the third and fourth rivers mentioned in the Biblical description of the garden. Those who agree so far differ widely as to what rivers should now be regarded as the ancient Pison and Gihon. The Buddhistic scholars, although they reject our Bible in the greater part, incline to the opinion that the Pison is the sacred Ganges, and that the Gihon is none other than the Nile. As to the last, it is altogether probable that they are correct on that point, because the Biblical account plainly says that Gihon "compasseth the whole land of Ethiopia."

Some investigations confirm that Eden was a spot of comparatively small area located on the tablelands of what is now Armenia, from which rise the Tigris and the Euphrates. A few scholars of distinction argue that the Adamic paradise was located in Africa in the vicinity of the mountains of the Moon. Still another school of orientalists locate the celebrated garden in the vicinity of the ancient city of Babylon.

You will notice, however, that none of these theorists has been able to get the four rivers mentioned in the Biblical account properly located. Neither have they found a place where one great river "separates into four heads." This being the case, it is hardly necessary to add that the exact location of Eden is a mystery that will probably never be solved.

The Scott of the Middle Ages.

John Froissart, born in 1337, is called the Walter Scott of the middle ages. He was a churchman and a scholar. Living as he did in unsettled times, before nationality had become well developed, he was destitute of patriotism and, therefore, more reliable as a cosmopolitan chronicler. He traveled in France, Scotland, Italy and other countries. His chronicles are the result of his own observations and are valued as a faithful portrayal of the places, customs and manners of the people during his time, although not so reliable as history.

Dangers of Pneumonia.

A cold at this time if neglected is liable to cause pneumonia which is so often fatal, and even when the patient has recovered the lungs are weakened, making them peculiarly susceptible to the development of consumption. Foley's Honey and Tar will stop the cough, heal and strengthen the lungs and prevent pneumonia. LaGrippe coughs yield quickly to the wonderful curative qualities of Foley's Honey and Tar. There is nothing else "just as good." J. W. McCollum & Co.
